WHAT WE DO

We have provided essential items alongside nutritious meals to enhance the well-being of individuals and families in need.

STREET OUTREACH

Our outreach work has taken us to places where many would never imagine a person could survive. We remain committed to adapting our services to reach those who are often hidden in plain sight. Our efforts are focused throughout the South and West Sides of Chicago, where the need for compassionate support remains great.

Outreach Services

Thanks to the support of our community, the Lunchtime Program has distributed 6,434 bag lunches to homeless and low-income individuals, families, veterans, and refugees across Chicago's South and West Sides.

Because of the generosity of our supporters, our outreach services provided 4,823 hygiene products for men, women, and babies, along with clothing, to individuals and families experiencing hardship.
